SUBJECT: BUFFER ZONE LEASE.
IF GEOPAC IS SUBLEASING THE PROPERTY AREN'T THEY REQUIRED TO NOTIFY US OR AT
LEAST GET OUR CONCURRENCE? COULD WE GET EMDEMNIFICATION, SINCE THE CATTLE, IF
THERE ARE ANY, WOULD TEND TO KEEP SOME OF THE VEGETATION DOWN.

6/26

Jon

The cattle were identified as a source of spreading RA
contamination by the DOE Tiger Team. To keep them
we would have to start doing analysis on the animals.
There is continually the evidence of "meadow muffins" in
the "burn pit": ~~the burn pit~~ The Burn pit
will be cleaned up by 12/92 (State Order) and
then we could go back to the lease if we wanted to.

THEY ARE NOT TO ASK US, BUT
AT LEAST SHOULD NOTIFY

Q. THIS IS AN SRC QUESTION...
THIS TERMINATION WAS INITIATED
BY ENVIRONMENTAL.
